HELLO AND WELCOME ...

More and more people are branching out from the mainstream U.S. coinage of Half Cents through Twenty Dollar gold pieces. There are many factors which contribute to this. One being prices, and perhaps another is familiarity.

Most of us enjoy something new. That's why obscure items such as So-Called Dollars, Hard Times Tokens, Encased Postage, Life Saving Medals, etc. are gaining in popularity. However, in order to learn about these other areas of American numismatics, a person needs to do some research.

That's where we can help. We offer, for immediate purchase, the largest selection of American numismatic literature to be found anywhere. Everything from reference books, to periodicals, to auction catalogues, to fixed price lists – it's all here.

If you are interested in doing pedigree research, you need the older materials. If you are wanting to study about the earlier coin collectors, you need the older materials. If you like history, drama, and U.S. Mint shenanigans, you need the older materials. In other words – *it would benefit you to build a useful reference library.*

Numismatic literature is one of the often overlooked areas mentioned above. If you only knew how thin the supply really is, you would spend more time, energy, and money toward getting involved in this important collectible area. But that's okay. Bibliophiles don't need more competition for plated Chapman's or Elders, let alone the various plated and thick paper Frossard and Woodward offerings. I'm still working on completing my run of Lyman Low's and don't need anyone else to run up prices on items of which there are less than 10 known.

For those of you who are interested in the early U.S. Mint, don't forget to order a copy of the new Henry Voigt book (check inside). Over 100 copies were sold in the first two weeks; and a deluxe, large paper, leather bound, extra-illustrated Limited Edition run of 100 is now being prepared. These will be priced at \$395. Regular copies of "*Henry Voigt and Others Involved with America's Early Coinage*" are available for \$95 plus \$4 s/h. Please make any checks for Voigt book payable to the publisher, CCEF.

Check over the extensive selection (from the 1860's to present) and e-mail your order to us. We are here to be of assistance.

As always, we say "Thank You" to all, and hope you enjoy this most fascinating hobby.

Best wishes,

Karl Moulton

HOW DO YOU WANT TO RECEIVE YOUR PACKAGE ?

Here are the options to choose from :

1. **MEDIA MAIL (BOOK RATE).** Please figure \$2.50 for the first item and \$1.00 for each additional item, along with insurance from the table below. We always charge actual postage. For shipping purposes, count five PR's as one item. This is how most orders will be shipped unless another choice is requested and prepaid. This option takes anywhere from 5 to 30 days for your package to arrive.
2. **FLAT RATE.** Please figure \$4.60 for items that will fit into a flat rate envelope. Larger orders will go in priority flat rate boxes at \$9.15 where applicable. Add insurance from the table below. We always charge actual postage. Due to the cost, priority shipping charges and insurance must be prepaid. It will take 2 to 7 days for your package to arrive, as the post office will not guarantee delivery within three days.
3. **OTHER.** We will be happy to ship by Fed Ex using your account number, or prepaid including pick-up and other applicable Fed Ex fees.

NOTE : Shipping your order may cost more or less than the estimates above depending upon weight. Any additional charges will be billed based upon actual cost. Insured packages can be traced only after 30 days (the Post Office's policy).

**** Any order of \$50 or more for merchandise keeps you on our mailing list for one entire year. ****

PACKING & HANDLING : Please add the following charges for the number of items you order:

| | |
|------------|-----------------|
| 1 - 5 | \$.75 per item |
| 6 - 10 | \$ 5.00 Total |
| 11 - 20 | \$ 7.00 Total |
| 21 - 30 | \$10.00 Total |
| 31 - 40 | \$12.00 Total |
| 41 - 50 | \$15.00 Total |
| 51 or more | \$20.00 Total |

This helps cover the cost of boxes, strapping tape, packing for the catalogues, labels, etc.
The charges listed above are, in every case, lower than the per lot fees charged in mail bid sales.

INSURANCE : We insure most packages. Please add charges from the table below:

POST OFFICE INSURANCE

If you were willing to give \$1.25million, the description of “this coin could make you legendary forever” would accompany this piece. Of course, in Jay’s unique style of salesmanship another 1793 Wreath Cent description, for \$500,000, says this, “stop and think about it...you must consider this monster!!!” It sure is tough to sell dupes | 15. |

U.S. TREASURY:

DEPARTMENT OF THE TREASURY
BUREAU OF ENGRAVING AND PRINTING
WASHINGTON, D.C.

This engraving, printed from a plate made from the original master die, is a replica of the face of the \$10 United States Note, Series 1901. Known as the "Buffalo Bill," with portraits of Meriwether Lewis and William Clark, and the bison in the central design, it was undoubtedly issued to stimulate interest in the Lewis and Clark Centennial Exposition held in Portland, Oregon, in 1905.

The portraits of Lewis and Clark were engraved by G. F. C. Smillie. Marcus W. Baldwin executed the engraving of the bison which was designed by Ostrander Smith based on a wash drawing by Charles R. Knight.

Supposedly, it was put together in the space of 10 years from 1868 – 1877. This researcher has been conducting intensive research about Jules Fonrobert and can barely find anything to verify that he even existed. Most pedigrees regarding the more important coins that were offered in these sales begin with Fonrobert, there's nothing earlier. SCARCE EARLY BLUEBOOKS

- Bluebook, 2nd Edition, 1943, Very Fine,** This copy displays strong gilt on the front cover. The binding is tight, the pages clean and fresh. There is no writing anywhere. The only minor defects are a 1/8th inch indent on the front cover and some discoloration on the upper rear. This should prove to be a wise purchase 95.
- Bluebook, 4th Edition, 1945, Rare Black Cover Variant.** Owner's name on free fly. A few small spots on the front cover. Otherwise a very presentable example of this much sought after, early "bluebook", which is presently unknown in Near Mint condition. If anyone has such an animal, I'd gladly pay \$150. This one is offered at 50.
- Bluebook, 4th Edition over 3rd, 1945.** A scarce overprint in very good condition with bright pages. Gilt faded and spine ends wrinkled 45.

CANADIAN NUMISMATIC JOURNAL:

An important run of early issues. Volume 1, 1956 - Volume 16, 1971, missing 1963, 1964, & 1965. The new book "*Henry Voigt and Others Involved in America's Early Coinage*" is now available!

This 230-plus page, hardbound volume describes in detail the history and drama of the first United States Mint. It outlines the problems the people who worked there encountered in producing the coinage that was so needed and wanted. Many original source documents from the National Archives were utilized.

The 1792 issues are well chronicled by letters from President George Washington, Secretary of State Thomas Jefferson, and Mint Director David Rittenhouse. Those coins were not patterns, but rather were the first circulating federal currency made after the Mint Act of April 2, 1792, had been signed into law by President Washington. An enlarged color picture of the finest 1792 half disme, previously owned by David Rittenhouse, and sold in the 1919 ANA sale by Henry Chapman, is displayed on the front cover.

Subjects include Henry Voigt's involvement with steam engines, numerous pages from his 1793 daily U.S. Mint work ledger, the 1793 yellow fever epidemic, America's first coin dealer, the 1796 Quarters, John Reich, Electrotypes, the "E" and "L" counter-stamped quarters, and an interesting chapter titled "Modern Misinformation".

Many illustrations found in the Henry Voigt book have never been seen in any other numismatic text. Some of these include Patience Wright and the 1793 Liberty Cap Cent, Mint Treasurer Tristram Dalton and pages from his 1793 account ledger, the U.S. Mint's 1792 coinage expenses, a visitor's register page with Adam Eckfeldt's signature, David Rittenhouse's 1794 silver ingot deposits (these were made into 1794 dollars), and a wonderful 1795 portrait of Anne Bingham (the model seen on the Draped Bust coinage) done by artist Gilbert Stuart.

Respected numismatist and author Q. David Bowers wrote the foreword. Some of his comments include, "*Henry Voigt and Others involved with America's Early Coinage is a tour de force...this is the finest first-person (so to speak) account I have read on the subject...I learned a lot while reading this book, correcting many impressions I had earlier.*"

This historically important book was published by the Cardinal Collection Educational Foundation, which supports research and offers other publications about early American money.

Copies of this 6x9 book are now available from the author for \$95 plus \$4 p&h. Please make checks payable to CCEF.

A special *limited edition print run of 100* is now being prepared. It will be *bound in full white leather with gold lettering on the front cover and spine*. Also, it will be a distinct *large paper copy with a separate plate section of full-page color illustrations*.

Orders are now being accepted. This exquisite volume is priced at \$395.

AMERICA'S EARLY

COINAGE

W

by Karl Moulton

Foreword by Q. David Bowers

Introduction

This is a coin book about people – hundreds of them! Most had an involvement, either direct or indirect, with the United States Mint coinage from the 18th and 19th centuries. Several are well known; many are not. The dedication and hard work of some of these people led to the success of the first U.S. Mint at Philadelphia, and ensured that the coins minted there would continue to be created, circulated, and eventually respected enough to be collected for their beauty and historical aspects.

Amazingly, Henry Voigt still remains a “numismatic nobody” after 200 years. He spent the last 22 years of his life in the government’s service as the first Supcrintendent and Chief Coiner of the United States Mint between the years 1792 and 1814.

This book, the result of decades of ongoing research, has been based on the outline regarding proper numismatic research written by numismatist R. H. Williamson, a New York engineer who worked in the U.S. and Italy. His interest in the first United States Mint led to several articles that were published in the early 1950s. In the April 1951 issue of The Numismatist he wrote, “...when we search for solid, unimpeachable, historical facts about the national currency itself – our early legal U.S. money, made at the first U.S. Mint at Philadelphia, 1793-1832 – only the stout-hearted and persevering succeed. Much “information” on the subject, published in recent years, is but a repetition of biased guesses made by dealers and collectors with specimens for sale during the first great American coin-collecting boom of the 1860’s.

These stories, copied and re-copied through the decades, eventually have become "facts" of a sort, but some need de-bunking.

Considering the number of U.S. numismatists who collect the several early American series, it is surprising that there hasn't been a greater demand for accurate background information."

"The data on early American coinage constitute a great unfilled void in American numismatics, and also a challenge. Our science cannot claim to have come of age until this void is filled."

"...one pitfall should be avoided which has too seldom been avoided in the past. Great care should be exercised in separating the facts from the probabilities, and the probabilities from the conjectures. In any case, verbatim quotations from the source material are desirable, either in the text or in an appendix; only then can the reader judge for himself as to the validity of the writer's assumptions."

"...Perhaps the next generation of numismatists will have such a story at their fingertips."

This is that story. It is the history lesson I wanted to read when I was learning about early American numismatics. Ray Williamson never had the opportunity to review this text, yet he longed for "...the time when someone with burning curiosity again brings the early days to life for us."

This book is respectfully dedicated to Frank H. Stewart, Raymond H. Williamson, and all others like them who seek the truth surrounding American numismatics.

Karl V. Moulton

Foreword

Although I have read many scattered accounts of activities at the Philadelphia Mint in the 1790s and early 1800s, many questions remained unanswered. I have found traditional sources to vary in their reliability. Frank Stewart's 1924 book, *History of the First United States Mint, Its People and Its Operations*, is very good, but leaves the reader wishing that more had been said. Don Taxay's magnum opus, *U.S. Mint and Coinage*, 1966, was considered by many to be the definitive source on the title subject, until researchers began reading it carefully, finding many errors of fact, probably from *assumptions* furnished by Walter Breen, the major outside contributor to the book. Still, it remains very useful. The Taxay work was written in a quarter century of misinformation, from 1950 to about 1975, when Breen reigned as the undisputed icon in American numismatic research. While quite a few other students of mints and minting found problems here and there with some of Walter's writings, the full extent of his errors was not known until later, when the present marvelous era of numismatic research took hold. A half dozen or more scholars entered the field, one of whom was Karl Moulton. Located in Congress, Arizona, Karl and his wife Jenny are well known as dealers in out-of-print numismatic literature, most importantly the auction catalogues issued by many different firms from the mid-19th century down to the present day.

The new methodology employed by Moulton and several others, quite unlike that used by Breen, has been to evaluate source material, add modern commentary, a few opinions (strictly identified as such), and generate information that readers will find to be quite useful. One of my favorite thoughts is that 1 coin plus 1 book or reference

source about that coin will equal not 2, but 3 units of numismatic enjoyment.

Karl Moulton's *Henry Voigt and Others Involved with America's Early Coinage* is a tour de force. In reading the book, which occupied an enjoyable day (I often stopped to ponder various sentences and thoughts), I came to feel that I was a visitor on the spot, within the walls of the Philadelphia Mint, as workmen came and went, dies were made, and coins were struck. I am quite sure that you will have the same experience. This is the finest first-person (so to speak) account I have read on the subject.

Anyone owning a 1793 Chain AMERI. cent, an American classic rarity, will enjoy and appreciate it more after reading this book. The same goes for any other coin made at the first Mint during its birthing years.

To a deep and fascinating immersion in Mint history the author adds many numismatic comments and, supplementing the book, a detailed evaluation of early quarter dollars and certain other coins. I learned a lot while reading this book, correcting many impressions I had earlier. One of these had to do with "Bob Birch," attributed by Carl W.A. Carlson as being the engraver of the 1792 Birch cent. I dismissed this, feeling that "Bob" was too informal of a designation for a Mint employee. Then, lo and behold, in this book is an illustration of original Mint records specifically mentioning Bob Birch! I stand properly informed and corrected.

Such gems of information will make this book one of the most valuable in my numismatic library. I am sure you will have the same experience. I strongly recommend it as a great addition to every numismatic library.

Many of these early sales show their age in slightly ragged edges, stained paper, thin spines, and occasional notations. Some have been folded for mailing, and to fit in the vest pocket for the days of the sale. Others have been improperly stored over the last 100+ years. All are fully useable copies and we have tried to accurately note any of these faults.

12/16/1880 Charles A. Besson, 40pp., 1175 Lots, These Haseltine sales, long ignored because of their lack of promotion in the descriptions, are a veritable wealth of information to the serious numismatic researcher. A prime example of this can be found in this sale, which contains an 1838-O Half Dollar. You will not find this offering of an 1838-O Half mentioned in anyone's pedigrees in any references because no one has taken the time to check. According to Haseltine's information, at this early juncture, there were six examples known. **Get these Haseltine catalogues while they are still available!** 45.
11/28/1881 Haseltine Type Table, 124pp., 1920 Lots with 3-page addenda. Perhaps the most useful reference for American coinage in the 19th century. Extensive die descriptions are presented for U.S. Dollars, Half Dollars, and Quarter Dollars. The important work had been started by J. Colvin Randall, a collector/part-time dealer living in Philadelphia. Haseltine and Randall combined their knowledge and worked for three years on the silver descriptions. Unfortunately, when Haseltine decided to print this catalogue, in which he offered other material, he failed to list Randall as an author. This copy has chipped and detached covers, but is partly priced. Although this pioneering work was supplanted by later, separate reference books, it remains useful and highly desirable..... 140.

| 03/03/61 Edwin Hydeman, 40pp., 1311 Lots This sale should have been one of the most memorable sales of the 20 th century. Unfortunately, Kosoff's cataloguing kept it from being well remembered. This starts off on the forward when he makes note of the "King of American Coins – the "1904" Silver Dollar. However, with that having been said, the material offered was phenomenal. Think about this list: the Idler 1804 Silver Dollar, the Olsen 1913 Liberty Head Nickel, the Neil 1894-S Proof Barber Dime, the Kern 1876-CC 20-cent piece, an 1841 Quarter Eagle, an 1879 Stella in Aluminum with another in gold, a 1922 Matte Proof Peace Dollar, hundreds of Patterns, and the unique 1866 Quarter and Half Dollar without Motto. Disgustingly, in light of recent emissions from the Philadelphia Mint, this remains the only coin considered to be illegal to own (but only in this country) by the extremely narrow minded and ignorant U.S. Treasury officials. The government has no title or any portion thereof to any 1933 Double Eagle. Once the dies make contact with the planchet, the bullion piece becomes legal tender regardless of any "politics" or claims made after that time. An important collectible. Soft cover 75.

A VERY SPECIAL OFFERING

1960 – 1969 COMPLETE RUN OF ALL 66 SALES

The 1960s was perhaps the most dramatic decade of the last century. At the time the Stack's firm presented many spectacular collections. Some of the important catalogues in this group are the Milton Holmes collection of early copper, the 1804 Silver Dollar in the Fairbanks sale, the Cox collection of half dollars, and the Samuel Wolfson two part collection of choice U.S. material. In 1963 the George Walton collection was offered, but failed to include his genuine 1913 Liberty Head Nickel. For early quarter collectors the Grant Pierce collection in 1965 is a must have. The following year the Conway Bolt sale was another important offering. In 1967 the Charles Jay sale offered Colonials and early copper, along with a 1792 Birch Cent, an 1827 overdate restrike quarter, an 1838-O Half, and the unique 1866 No Motto Proof Dollar. This decade was capped off by the two part offering of the R.L. Miles collection of U.S. coinage, which contained some of the finest known American rarities.

We are fortunate to offer one set only of this significant run of Stack's sales for..... 1350.

DuBois. Apparently, the first owner of this example, R.C. Davis, wanted some documentation from the parties responsible for creating and selling this coin. This was a smart idea on Davis's part as he knew, along with Haseltine and DuBois, that this coin was one of the "new" Class III Restrikes that first entered the coin market in 1876. The documentation from DuBois is an outright lie and makes for interesting reading..... |
